

Small and Medium Business Program

# Heating bonus

## Save on energy-efficient heating upgrades

Did you know that a boiler or furnace tune-up can make your system up to 20% more efficient? Plus, infrared heaters give off comfortable and more-natural heat comparable to the radiant heat from the sun. Heating upgrades can help enhance productivity, customer and employee comfort, and everyone's safety.

## Start saving

When you're ready to make energy-saving upgrades, apply this limited-time bonus, which can be combined with existing qualifying rebates, to help offset the cost of your project. Simply enter your bonus code on the application to qualify. We can help you calculate your savings!
