### Overview

The DTE Small and Medium Business Program is designed to help small and medium businesses be more energy efficient. By participating in this program, customers will be eligible for lighting, refrigeration and HVAC rebates that are exclusive to small and medium businesses.

Certain prescriptive measures require a reservation application. This is noted as (reservation required) where applicable. Note: These rebates are not available for lamps and fixtures purchased at retail stores participating in the DTE lamp discount program. Rebates for lamps and fixtures purchased from those retailers is included in the discounted price.

### Your Steps to Completing a Project

#### 1. Check your customer's eligibility.

- Rebates are available to small and medium business electric and/or gas customers in the DTE territory with an annual energy bill of up to \$120,000.
- Review the program's terms and conditions (see page 6) for additional requirements.
- Need help confirming your customer's eligibility? Please call 855.748.2525.

#### 2. Submit the necessary information to receive a project reservation.

- It is highly encouraged to receive a reservation for all applications. Measures that require a reservation are noted in the application. Projects that are submitted without a reservation are subject to program fund availability.
- To receive a project reservation and reserve rebate funding, please submit:
  - Sections 1-4 of the incentive application.
  - Copies of the proposed equipment manufacturer measure specifications.

#### 3. Receive your project reservation letter and complete project.

- If approved by the program, a project reservation letter will be emailed to you.
- Once you receive your project reservation letter, you may begin your project.
- Projects must be completed within 90 calendar days of receipt of the project reservation or by November 30, 2024, whichever comes first.

#### 4. Complete and submit your final application.

- · Complete and gather all required documentation, which includes the following:
  - Sections 1-6 of the application and the measure worksheets for which rebates are being applied for.
  - An itemized customer invoice, including quantities, model numbers, labor costs and the DTE Small and Medium Business Program rebates deducted from the total project cost when the incentive is being paid to a third party.
  - Equipment specifications, if changed from what was submitted during the project reservation process.
- Submit the required documentation to the program via the email listed below within 60 calendar days of installation or by November 30, 2024, whichever comes first.

#### Email: DTE-Small-Business@franklinenergy.com

Please note: If the project has changed by more than 10% from the original reserved project, please contact the program at 855.748.2525. You may need to reapply for your project reservation.

#### 5. Receive your rebate.

- Once the final application has been approved by the program, you will either receive an incentive check or an ACH deposit (depending on your payment selection). Payments should be received within 2-4 weeks of receiving a complete final application.
- To expedite the processing of your rebate, please make sure to provide all required documentation and signatures. Any missing information or incomplete forms will delay processing.

### Terms and Conditions

The energy optimization measures listed within are being/have been installed in a qualifying time frame, at a qualifying facility and are not for resale. Additional program terms and conditions can be found in the policy and procedures manual available at dteenergy.com/savenow.

I understand that in the event this application received a reservation, that reservation is not a guarantee of payment. Rebate payment will be based upon the final application meeting the program terms and conditions, and the availability of funds. I understand that if this application did not receive a reservation, that payment is not guaranteed and based on the availability of program funds.

Selected terms and conditions include:

- 1. Final applications and all required documentation must be received within 60 days of project completion or by Nov. 30, 2024, whichever comes first. Incomplete applications, missing documents or applications submitted after that date will result in the project being canceled.
- 2. The program has a limited budget. Applications will be processed until allocated funds are reserved or spent.
- 3. All equipment must be purchased and installed prior to submitting the final application.
- 4. Applicant agrees to inspection and measurement activities by DTE Energy or its representative of both project payment and equipment installation for up to five years from the date of equipment installation.
- 5. Rebates may be taxable and the applicant is solely responsible for the payment of any resulting taxes. Rebates will be reported to the IRS, unless the applicant is exempt.
- 6. The applicant may be required to refund some or all of the incentives if the measures do not remain (or were not) installed for a period of five (5) years or the end of the product life, whichever is less.
- 7. Materials removed, including lamps and PCB ballasts, must be permanently taken out of service and disposed of in accordance with federal and state laws or regulation and local codes and ordinances. The applicant is responsible for being aware of any applicable codes or ordinances. Information about hazardous waste disposal can be found at www.epa.gov/wastes.
- 8. For certain measures, the incentive amount will be determined based on the estimated energy savings. The applicant may be required to provide documentation on energy savings calculations and assumptions. DTE Energy will make the final determination of the energy savings and thus the incentive amount to be paid.
- 9. DTE Energy has no obligations regarding and does not endorse or guarantee any claims, promises, work or equipment made, performed or furnished by any contractors or equipment vendors that sell or install any energy efficiency measures.
- 10. Payment of incentives under the program and/or evaluation of applications for incentives shall not deem DTE Energy or any of its affiliates, employees or agents ("DTE Energy parties") to be responsible for any work completed in connection herewith. Applicant fully releases DTE Energy parties from any and all claims it may have against DTE Energy parties in connection with this application, the incentives or the work performed in connection with them. In addition, applicant agrees to defend, indemnify and hold DTE Energy parties from and against any and all claims, losses, demands or lawsuits by any third parties arising in connection with this application, the payment of incentives or any work performed in connection with them.
- 11. DTE Energy reserves the right to associate with your business and participation in the incentive program for promotion and advertising purposes. See the policies and procedures manual for more on promotional co-branding.
- 12. Applicant acknowledges that Federal Energy Regulatory Commission (FERC) Order issued on June 1, 2012, at Docket No. ER11-4081-000 ("FERC Order") approves of the inclusion of energy efficiency resources as planning resources in a utility's resource adequacy plan (all italicized terms as defined in the FERC Order). Accordingly, applicant and DTE Energy agree that all such rights afforded with respect to energy efficiency resources, including but not limited to the right to identify them as a planning resource so as to include them in a resource adequacy plan, shall inure exclusively and fully to DTE Energy. Applicant agrees that it will not claim ownership in such energy efficiency resources for purposes of identifying them as a planning resource adequacy plan.

I have read and understand the measure specifications and program guidelines set forth in the application and the program policy and procedures manual and agree to abide by those requirements. Furthermore, I concur that I must meet all eligibility criteria in order to be paid under this program and not receive incentives from any other utility for the same project.

I certify that the information on this application is true and accurate. I understand that any misrepresentation of information – intentional or otherwise – that results in unjustified and/or unsubstantiated incentives being awarded to me (the customer) will prompt action by DTE Energy and/or its agent to recoup such funds from me and may include additional legal action commensurate with the seriousness of the event.

I acknowledge and understand that it is necessary for DTE Energy to store, use and share the information contained in this application, as well as information collected in connection with this project, including but not limited to my business name, address, account number and energy consumption data ("customer data") for various purposes. Therefore, I hereby authorize DTE Energy to collect, store and use the customer data for internal purposes and to present me with other energy saving opportunities. I further authorize DTE Energy to share the customer data with third party vendors/contractors who are doing work on DTE Energy's behalf.

# Electric Lighting Measures and Rebates

#### L1 to L8: TLED and De-lamping (Reservation Required)

#### CR64: Freezer and Cooler Display Anti-Sweat Heater Controls (Reservation Required)

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Freezer and cooler display anti-sweat heater controls	CR64	\$100		Door	

#### **CR66: LED Refrigerated Case Door Lighting**

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
LED refrigerated case door lighting	CR66	\$42		Per Door	

#### CR67 to CR74: Permanent Magnet Synchronous Motors

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Permanent Magnet Synchronous Motors (Med Temp Walk-in, Replacing SP)	CR67	\$65		Motor	
Permanent Magnet Synchronous Motors (Low Temp Walk-in, Replacing SP)	CR68	\$80		Motor	
Permanent Magnet Synchronous Motors (Med Temp Walk-in, Replacing PSC)	CR69	\$18		Motor	
Permanent Magnet Synchronous Motors (Low Temp Walk-in, Replacing PSC)	CR70	\$23		Motor	
Permanent Magnet Synchronous Motors (Med Temp Case, Replacing SP)	CR71	\$26		Motor	
Permanent Magnet Synchronous Motors (Low Temp Case, Replacing SP)	CR72	\$33		Motor	
Permanent Magnet Synchronous Motors (Med Temp Case, Replacing ECM)	CR73	\$1.70		Motor	
Permanent Magnet Synchronous Motors (Low Temp Case, Replacing ECM)	CR74	\$2.10		Motor	

#### CR75 to CR77: Refrigerated Savings Due to Lighting Wattage Reduction

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Refrigerated Savings due to Lighting Savings (-20°F - 0°F)	CR75	\$0.11		Watts Reduced	
Refrigerated Savings due to Lighting Savings (0°F - 20°F)	CR76	\$0.07		Watts Reduced	
Refrigerated Savings due to Lighting Savings (20°F - 40°F)	CR77	\$0.05		Watts Reduced	

#### CR78 to CR85: Energy Star Commercial Glass Door Refrigerators and Freezers

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
ENERGY STAR Commercial Glass Door Refrigerators less than 15ft <sup>3</sup>	CR78	\$12		Refrigerator	
ENERGY STAR Commercial Glass Door Refrigerators 15 to 30 ft <sup>3</sup>	CR79	\$22		Refrigerator	
ENERGY STAR Commercial Glass Door Refrigerators 30 to 50ft <sup>3</sup>	CR80	\$37		Refrigerator	
ENERGY STAR Commercial Glass Door Refrigerators more than 50ft <sup>3</sup>	CR81	\$42		Refrigerator	
ENERGY STAR Commercial Glass Door Freezers less than 15ft <sup>3</sup>	CR82	\$30		Freezer	
ENERGY STAR Commercial Glass Door Freezers 15 to 30ft <sup>3</sup>	CR83	\$49		Freezer	
ENERGY STAR Commercial Glass Door Freezers 30 to 50ft <sup>3</sup>	CR84	\$75		Freezer	
ENERGY STAR Commercial Glass Door Freezers more than 50ft <sup>3</sup>	CR85	\$110		Freezer	

#### CR86 to CR87: Reach-in Refrigerated Display Case Door Retrofit (Reservation Required)

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Reach-in refrigerated display case door retrofit -33° - 50°F (medium temp.)	CR86	\$34		Linear Foot	
Reach-in refrigerated display case door retrofit 0° - 32°F (low temp.)	CR87	\$87		Linear Foot	

Total Electric Refrigeration Rebates

### Electric Other Measures and Rebates

#### **OE66: Vending Machine Controller Retrofits**

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Vending machine controller retrofits	0E66	\$48		Controller	

#### OE67 to OE70: Packaged Terminal AC and Heat Pump Units (PTAC/PTHP)

Measure name	Size Category	Code	Qualifying Efficiency	Rebate	Installed Efficiency	# of Units	Unit	Total Rebates
	<7,000 Btu/hour ≥13.1 EER	0E67	13.1 EER	\$5			Tons	
Packaged Terminal AC	7,000 Btu/hour to 15,000 Btu/hour ≥11.8 EER	0E68	11.8 EER	\$5			Tons	
	>15,000 Btu/hour ≥10.5 EER	0E69	10.5 EER	\$5.80			Tons	
Package Terminal Heat Pumps	All	0E70	9.0 EER	\$5.50			Tons	

#### **OE72: High Efficiency Hand Dryers**

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
High efficiency hand dryers	0E72	\$58		Per Dryer	

#### **OE73: High Performance Glazing for Windows**

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
High performance glazing	0E73	\$17		100 Sq. Ft. of glazing	

#### **OE74: HVAC Reduction Grow Rooms**

Measure Name	Code	Free Cooling available?	Rebate	# of Units	Unit	Total Rebates
HVAC reduction for interior horticultural grow rooms	0E74	□Yes □No	\$0.055		Total Watt Reduced for horticultural grow rooms	

#### **OE67 to OE68: Clothes Washers**

	Code	Rebate	# of Units	Unit	Total Rebates
ENERGY STAR <sup>*</sup> High efficiency clothes washer (electric water heat, electric dryer)	0E67	\$89		Washer	
ENERGY STAR High efficiency clothes washer (electric water heat, gas dryer)	0E68	\$40		Washer	

**Total Other Electric Rebates** 

# Gas HVAC Measures and Rebates

#### **GH1: Smart Thermostats**

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Smart thermostat	GH1	\$75		Thermostat	

#### GH2 to GH3: Central Natural Gas Furnace

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Central natural gas furnace 92% efficient	GH2	\$0.70		Input MBH	
Central natural gas furnace 95% efficient	GH3	\$0.85		Input MBH	

#### **GH4: Infrared Heater**

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Infrared heater	GH4	\$1.30		Input MBH	

#### GH5: High Efficiency Boiler (space heating)

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
High efficiency boiler (space heating)	GH5	\$0.70		Input MBH	

Total Gas HVAC Rebates

### Gas Tune-Up Measures and Rebates

#### TU7 to TU9: Space Heating Boiler Tune-Up

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Space heating boiler tune-up (110-500 MBH)	TU7	\$50		Boiler	
Space heating boiler tune-up (501-1,200 MBH)	TU8	\$150		Boiler	
Space heating boiler tune-up (>1,200 MBH)	TU9	\$300		Boiler	

#### TU10 to TU12: Furnace/RTU Tune-up

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Furnace/RTU tune-up (40 - 300 input MBH)	TU10	\$15		Furnace/RTU	
Furnace/RTU tune-up (301-500 input MBH)	TU11	\$40		Furnace/RTU	
Furnace/RTU tune-up (>500 input MBH)	TU12	\$75		Furnace/RTU	

#### TU13: Domestic Hot Water Tune-up

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Domestic Hot Water Tune-Up	TU13	\$75		Boiler	

Total Gas Tune-Up Rebates

# Gas Domestic Hot Water Measures and Rebates

#### HW13: Storage Commercial Water Heaters

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Storage commercial water heaters	HW13	\$60		Heater	

#### HW14: Instantaneous Water Heater

	Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Ins	tantaneous water heater	HW14	\$65		Heater	

#### HW15 to HW16: Domestic Hot Water System

Measure Name	Code	Rebate	# of Units	Unit	Total Rebate
High efficiency indirect domestic hot water heating system (90% efficient)	HW15	\$1.00		kBtu/hr boiler input capacity	
Mid efficiency indirect domestic hot water heating system (84% efficient)	HW16	\$0.45		kBtu/hr boiler input capacity	

Total Gas Domestic Hot Water Rebates

# Gas Other Measures and Rebates

#### GO17: Compressed Air

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Air compressor exhaust heat recovery	G017	\$15		HP	

#### G018: Ozone Laundry

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Ozone laundry	G018	\$15		Pound of wash capacity	

#### GO19: Demand Control Kitchen Ventilation

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Demand control kitchen ventilation	G019	\$0.10		CFM	

#### **GO20: Vertical Night Covers**

Measure name	Code	Rebate	# of	Units	Unit	Total Rebates
Vertical Night Covers	G020	\$0.50	Ft.	Hours	Linear Foot x hours/day	

#### GO21 to GO22: Reach-in Refrigerated Display Case Door Retrofit

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Reach-in refrigerated display case door retrofit – 33°-50°F (medium temp.)	G021	\$20		Linear Foot	
Reach-in refrigerated display case door retrofit – 0°-32°F (low temp.)	G022	\$25		Linear Foot	

#### GO23 to GO24: Ceiling and Roof Insulation

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
Roof Insulation R-11 to R-24	G023	\$45		1,000 Sq. Ft. roof area	
Ceiling Insulation R-11 to R-42	G024	\$30		1,000 Sq. Ft. roof area	

#### GO25 to GO26: ENERGY STAR High Efficiency Clothes Washer (Electric Water Heater)

Measure name	Code	Rebate	# of Units	Unit	Total Rebates
ENERGY STAR High efficiency clothes washer (gas water heat, electric dryer)	G025	\$5		Washer	
ENERGY STAR High efficiency clothes washer (gas water heat, gas dryer)	G026	\$10		Washer	

**Total Gas Other Rebates**
